\*\*6–12 months advanced scheduling required. See other side for details.

All prices subject to change

## \*TREC Outdoors: Environmental Education

Students and teachers will not only participate in a hands-on, standards-based field lesson on Presque Isle, led by a professional education staff, but they will also receive a pre and post lesson to use in the classroom. Check out the available lessons below and see the insert for a description.

### Pre-K

- Who Lives at Presque Isle?
- Beach Search

### 1-2

- Wonders of Weather
- Shorebird Adaptations
- Beachcombing

### 3-4

- Beach Debris
- Weather Forecasting
- What Lives in the Lake
- Messages in the Sand
- The Pond

### 5-7

- Trees of Presque Isle
- Wind and Water
- Succession
- Wetland Investigation
- Neotropical Migratory Birds
- Invasive Species Population

### 8-10

- Near shore Lake Study
- Great Lakes Piping Plover
- CSI PI

### 11-12

- Beach Profiling
- Deer Population Study

## \*Movies + More: Educational Teachers Guides

The Big Green Screen Movies can be an integral part of the educational experience of TREC when you elect to receive the Teachers Guides that go along with each film. Teachers Guides contain lesson plans to facilitate in the classroom before or after your visit.

## \*\* LARGE GROUP DISCOUNT PRICES

Schools and Districts that wish to build TREC into their curriculum are rewarded with volume discount prices. However, please follow these guidelines:

- Schools/districts should expect to schedule 1 day/160 students (i.e. a district bringing 640 children should expect that the school will visit over at least 4 days)
- Those bringing over 499 students should have 1 point of contact who schedules all visits at one time (rather than having individual teachers calling to schedule)
- Those wishing to bring 160 - 1499 students must call to schedule a meeting/phone conversation with the Sales Coordinator and the Environmental Education Specialist Supervisor. This meeting should take place in:
  - September for programs to be scheduled the following March - August
  - January for programs to be scheduled for the following September - February
- Schools/districts wishing to bring 1500+ students must call to schedule a meeting with the Sales Coordinator and Environmental Education Specialist at least 1 full year in advance of the first scheduled visit.

## SCHEDULING YOUR FIELD TRIP

1. Decide on a few **dates and times** that will work for your group.
2. Decide which **package** suits your needs
3. Call **814-833-6050** to speak with a group sales contact – preferably **4-6 weeks** prior to your scheduled arrival.
